Poona Office of the Director
of Public Instruction

25th May 1885

Report

The undersigned begs to forward a copy of the Educational Inspector's further Division's letter N^o 537 dated 13th of May containing his remarks on Mr. McCallum's annual Report, to which attention was drawn in Government Memo N^o 1699 dated the 3rd October last

2. Steps are being taken generally to open Hindustani schools where funds are available but the whole difficulty lies in the provision of funds. In this office letter of 9th of May 9th Government have been asked to strengthen the Normal School at Dharampur and to make a grant in aid for local fund. If these proposals are sanctioned there will be more Hindustani teachers available for the schools. -

3 The question of low caste classes is an important one. The tendency to isolate Dheds in primary schools of their

own is increasing and should be kept within safe limits. The undersigned is however hopeful that Mr Patwardhan with the influence which he possesses over his Hindu subordinates, will carry out the orders of Government in regard to the education of low caste. Head Masters may refuse admittance to any boy whose conversation habits are filthy, but if the Dhed boy is well behaved and clean, he ought to be admitted without question to the village school. The disadvantages of special low caste schools are that they recognize the principle of separation. This principle is not only unhealthy in its effect on society but it positively throws back the progress already made in enforcing the principle of the rights of all classes of the community to admission into the public school. The promising low caste boy occasionally wants to enter the Single Vernacular School or the High School, or the Training College. If the principle of separation is admitted in primary schools the difficulty of admitting the low caste boy to secondary schools, where of course separate ^{& instruction} ~~institutions~~ cannot be provided, becomes greater. For these reasons Government will

much

much assist the Department by taking every opportunity of repeating the declaration of the rights of low caste children to admission into the State school.

Mr. McCallum's structures will serve the advantage of calling attention to matters of importance, but the undersigned believes there is further action is required beyond that being taken by the Educational Inspector who will continue to give the matter his full attention.

Signed W. Lockwood

To

The Director of Public Instruction.

Thammar 13th May 1886

Sir

With reference to your No. 5440 of 20th November last and its accompaniments, herewith returned, I have the honour to make the following remarks on para 33 Mr. McCallum's administration report for 1883/84.

2. The Dhedi class at Nagalkhet was first attached to the Gondustani school there

2 That the local Municipality refused to
give any contribution towards the new
building

3 That no urgent necessity was felt
for building a new school
because the old school was sufficient for the
present number of children

4 That the Government had not
yet decided to build a new school
at the present time
5 That the Government had not yet
decided to build a new school
at the present time
6 That the Government had not yet
decided to build a new school
at the present time
7 That the Government had not yet
decided to build a new school
at the present time
8 That the Government had not yet
decided to build a new school
at the present time
9 That the Government had not yet
decided to build a new school
at the present time
10 That the Government had not yet
decided to build a new school
at the present time

11 That the Government had not yet
decided to build a new school
at the present time
12 That the Government had not yet
decided to build a new school
at the present time
13 That the Government had not yet
decided to build a new school
at the present time
14 That the Government had not yet
decided to build a new school
at the present time
15 That the Government had not yet
decided to build a new school
at the present time
16 That the Government had not yet
decided to build a new school
at the present time
17 That the Government had not yet
decided to build a new school
at the present time
18 That the Government had not yet
decided to build a new school
at the present time
19 That the Government had not yet
decided to build a new school
at the present time
20 That the Government had not yet
decided to build a new school
at the present time

and was conducted by a Hindu teacher under the supervision of the Hindustani master. But in December last, at Mr. McCallum's suggestion, it was attached to the Marathi school and placed under the supervision of the Marathi Master. Neither of them got any remuneration for the work. -

The Hindustani Master is a trained man with a certificate of P.T. 12, and at present draws R.A. 15 as his pay (R.A. 12 as fixed pay and R.A. 3 as allowances under the rules). His allowances will be revised in June next according to the examination results for 1904/05. He has lately been ordered to obtain a higher Training College certificate if he wanted promotion, and informed that he would be allowed to appear for the examination without attending the College, as a special case. -

4. It was in 1902/03 that Mr. Laxman the then Deputy Inspector Kalady objected at the District Board meeting to provide for a new building in the Local Fund Budget for the Bagalkot Hindustani school and that his reasons were as under
That the Mussalman people of Bagalkot were mostly non-cess payers

forwarded the collector's remarks I beg to

Report by the Acting Director of Public Instruction, No. 883, dated 12th May 1885—
Stating, with reference to Government endorsement No. 38, dated 6th January 1885, that it is quite true that the school accommodation in Dhárwār is lamentably deficient, but it is equally true that the Educational Fund is unequal to providing better school-houses; that he is about to submit to Government a full report on this and other questions, but that he would here only invite the attention of Government to paragraph 11 of their Resolution No. 1204, dated 15th July 1884, where it is observed that it is not practicable to promise specifically the whole of the additional grant Rs. 2,82,000. Nor again could the whole be utilized at once. Observing in reference to this that Dhárwār alone has asked for an additional grant of Rs. 58,397, and has shown that its ordinary expenditure is Rs. 1,00,020, while its provincial grant is only Rs. 16,608, and that in the last six years its school attendance has increased from 9,625 to 30,858. Adding that he trusts that these circumstances will be borne in mind when his application for a moderate increase is before Government.

*Works in the Kanara Collectorate—
Proposals regarding certain.*

No. 382 C. W.—863 of 1885.

Public Works Department.

Bombay Castle,
19th May 1885.

Resolution of Government in the Revenue Department, No. 10204, dated 29th December 1884. *C/18357*

Reviews the Administration Report of the Kanara Collectorate for the year 1883-84, and communicates Mr Vidal's remarks regarding the construction of a bridged and metalled road from Sadashivgad to the Goa Frontier, in connection with the Marmagao-Hubli Railway; for the establishment of a steam ferry at the mouth of the Kulanadi; for the extension of the Anshi Ghat Road from Kadra to Karwar, and for the construction of a travellers' bungalow at Gersappa, and Mr. Todd's proposals that the Provincial road from Sirsi to Banvasi should be metalled, and that the nala on the road should be bridged.

Letter from the Superintending Engineer, Southern Division, No. D.—31, dated 10th February 1885.

Reports on the following public works in the Kanara District, as called for in Government memorandum No. 89 A, dated 10th January 1885 —

- 1.—Road from Sadashivgad to the Goa Frontier.
- 2.—Establishment of a steam ferry at the mouth of the Kulanadi.
- 3.—Extension of the Anshi Ghat road from Kadra to Karwar.
- 4.—Fairweather road from Konipet to Karwar.
- 5.—Travellers' bungalow at Gersappa.

Memorandum from the Commissioner, Southern Division, No. S. R.—146 dated 23rd April 1885.

With reference to Government memorandum No. 238 A, dated 19th February, 1885, submits, with his opinion a report by the Collector of Kanara regarding the above public works:

RESOLUTION —There can be no doubt that, in view of the opening of Marmagao as a port and railway terminus, it will be advisable to afford extra facilities for traffic between Karwar and the limits of the Goa territory.

2. Plans and estimates should be prepared for such additions as may be necessary to the existing road, so as to render it passable at all times.

3. The papers should be transferred to the Political Department, in view to a reference being made, as suggested by the Commissioner Southern Division, to the Goa Government, to ascertain if the road from the frontier to Marmagao is under construction.

4. Considering the width of the river at the crossing between Kodibag and Sadashivgad, a steam ferry is necessary, and the cost of supplying and working a suitable steam ferry-boat should be estimated, so that this want may be supplied, if funds are available on the opening of the Marmagao-Hubli Railway.

5. It does not seem advisable at present to take any step for the improvement of the road from Londa Station (West Deccan Railway) south towards Karwar; the requirements of the locality will be more apparent when the railway is open: meanwhile the existing road from Londa, *via* Supa, will suffice to carry forest produce to the nearest railway station.

6. Sufficient reasons are not forthcoming to warrant any expenditure on a road running along the left bank of the Kulanadi, from Kadra, or Konipet, to Karwar.

7. The Sirsi-Banvasi Road has, by trade requirements, been proved a useful line: its surface should be improved, and plan and estimate furnished for bridging the Wurda River, which is comparatively a small stream, at the point where it crosses this road.

8. The Commissioner, Southern Division and Collector of Kanara agree in recommending that a travellers' bungalow should be built at Gersappa, the half-way stage between Honavar and Gersappa. It is very doubtful if funds will be available but plan and estimate for providing a moderate-sized bungalow at Gersappa should be prepared.

9. The Commissioner, Southern Division, concurs with the Collector of Kanara in advocating a tonga postal line between Hubli and Karwar. the existing road is well adapted for this improvement, and the proposal should be referred to the Post Master General for report.

Under Secretary to Government

M. S. R. 2

To No 6467 of 1884/85

Colonel W. Peyton
Conservator of Forests
Southern Circle

Arthur Crawford Esq
Commissioner, Southern

Conservation Office &c.
Camp Yellapatti, 12th February
1885.

Sir,
With reference to Government
Resolution No. 590 dated the 22nd
July 1884 and your No. 3084 dated the
1st September last I have the honor
to submit Mr. Wright's report on the demarcation
of the forests in the talukas South of the
Nizampet, together with the maps and

other documents as per
margin connected with
the same.
Report No. 320 dated the 12th August 1884
of Mr. E. A. Wright, District Forest
Officer, Malabar
Collector of Malabar's remarks on the
above, No. 321 dated 1st Feb. 1885
Letter No. 633 dated September 1884 of
Mr. C. McCallum 1st Asst. Collector, Malabar
Demarcation states under A, B, C and D, with
index -
Letter No. 366 dated the 8th Sept. 1884 of the
Commissioner Forest Officer, Malabar, and
Collector endowment No. 5673 of 11th
Feb. 1884.
There is a map of the Badami
taluka
also in the Bagam Taluka
No. of the same taluka

Mr. Wright's proposals beyond that I
am, App.

approve of them and that it would now be well to obtain the sanction of government for the appointment of a Forest Settlement Officer to go over the lands entered in the statements A B and C and afterwards submit a Forest Settlement Report on them after the manner required by government and the procedure laid down in the Act.

2. Statement A is a general statement showing the former selections gazetted under Section 34 of the Forest Act in 1879, as well as the new selections of Mr. Hight's proposals. Statement B shows the occupied lands which from their situation it would be desirable to acquire for forest by exchange or payment of compensation. Statement C is a draft notification under Section 4 of the Forest Act exhibiting the

Noty. No 97
D 1/3/79

the additional lands selected
Mr Negat nor previously taken
in the then talukas of Badami
Baganor and Hungund. as well
as the protected forests in the same
Not and Hungund talukas given
in 1879. The Reserved Forests
of the Badami taluka gazette
in 1879 do not require to be registered
under section 4, though they were
now some under the inquiry and
settlement of the Forest Settlement
officers and, therefore, they are
only entered in the General
Statement A and not in the
Statement B or schedule of
lands required to be notified
now under section 4 of the Act.

3. Lastly Statement D exhibits
the correction in pages 200-203
of the government gazette dated
the 6th March 1879

4. I do not desire to make comment
on the forwarding remarks of the
Collector

Collector and his Assistant on Mr. Hight's proposals. but would wish to see the whole left to the good sense of the Forest settlement officer whoever the Government may be pleased to appoint. I would only say that in my opinion, and because the lands everywhere will require for Conservancy reasons to be alternately closed and opened on occasion requires it, that Reserved Forests everywhere, with $\frac{1}{3}$ of the area, always open, to supply the wants of the people, would appear the best. Mr. Hight gives very good reasons for this in his report.

5. On all the maps forwarded herewith the former section made are coloured green and the present ones yellow.

6. There has been delay in submitting

Submitting these proposals of
Mr. Hight's owing to the want
of certain village maps which
were required to complete the
Forest map made in my office
in 1879.

I have the honor to be
Sir,
Your most obedient servant

W. L. W. Colonel
Conservator of Forests,
Southern Circle.

(Colonel Peyton's letter
1885 and accompaniments.) (36/33)

No. 1029 of 1885.

Revenue Department

Camp Bijapur 5th April 1885

Submitted to Government.

2? These papers relate to the set
of lands for forest purposes in the
south of the Krishna in the Bijapur
Collectorate, namely, Bagalkot, Hung
and Badami.

3? The country to the north of
river is unsuited for forest concerns
on a large scale. Colonel Peyton
made separate proposals for selection
small areas to be converted into forest
blocks in the Northern Talukas, which
the Commissioner has submitted to
Government this day with his No. 990
A Now to turn to the Southern
Talukas, some of the waste lands now
selected, were notified in 1879 as Protected
and Reserved Forests under section 34
of the Act for High Division.

(Colonel Peyton's letter
1885 and accompaniments) (36

No. 1029 of 1885

Revenue Depart
Camp Bijapur 5th April

Submitted to Government.

2? These papers relate to the set
of lands for forest purposes in the
south of the 'Krishna' in the Bijapur
Collectorate, namely Bagalkot, Humn
and Badami.

3? The country to the north of the
river is unsuited for forest conserva
on a large scale. Colonel Peyton has
made separate proposals for selection
small areas to be converted into forest
blocks in the Northern Talukas, which
the Commissioner has submitted to
Government this day with his No 990.

4 Now to turn to the Southern
Talukas, some of the waste lands now
selected, were notified in 1879 as Protected
and Reserved Forests under section
of the Act in 1882.

area as Reserved Forest and proposed to add to it 26,455 Acres of waste land. He also proposes to take up some 27 numbers measuring ¹²⁶ 270, assessed at Rs 80, and now in occupation of private persons for inclusion in the Forests.

5. Neither the local Revenue Officers nor the Conservators of Forests have recorded their explicit opinions as to the propriety of the selection made by Mr. Light. As the Forest Settlement Officer to be appointed for the purpose would scrutinize the lists carefully before accepting them, Colonel Peyton would wish 'to see the whole left to the good sense' of such Officer. The Commissioner fully subscribes to this view and would now respectfully but earnestly urge the appointment of an experienced Officer to undertake the settlement. In the meantime the area formerly gazetted as Protected Forest and which

for very good reasons proposed to be
transferred to the head ~~of~~ ^{of} Reserve
forests, as well as the new area proposed
to be added may be notified, under
Section ²⁴ as recommended by the Conservator.
The errata (Statement 2) may also be
published as desired.
